A LARGE ASSORTMENT OF

CHICKERING & SONS',

BOARDMAN & GRAY'S,

and other celebrated Pianos for sale at Manufacturers prices, which range from

$235 to $800

according to Size, Style and Finish.

The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale throughout the West.

The subscriber, to guard the public against imposition would state that he is the only Agent in this City for Chickering & Sons' and Boardman & Gray's Pianos and the only person who has the genuine articles for sale.

The certificates of Agency can be seen at his Warerooms.

☞ Old Pianos taken in part payment for new ones, and a liberal price allowed.

NEW ROUTE

To the Eastern Seaboard!

ONTARIO, SIMCOE & HURON

RAILROAD.

THE NEW RAILWAY ROUTE across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Steamers calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.

The Steamers

KEYSTONE STATE, Captain RICHARDS, 1,600 tons,
LADY ELGIN, Captain CHAMBERS, 1,300 tons,
QUEEN CITY, Captain WILKINS, 1,600 tons,
NIAGARA, Capt. ———, 1,200 tons,

Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the North-ern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel will all be on Board First Class Boats, it will form the pleasantest route in existence to Eastern Cities.

The attention of Shippers of Freight, and Merchants generally, is especially invited to the fact that by it shipments from New York will reach Michigan ports in FIVE SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.

Connections will be made with Steamers for Lake Superior and Green Bay.

An Office will be opened in Milwaukee at an early date. Meanwhile, Information may be had of Messrs. A. T. SPENCER & CO., Chicago, or of the undersigned.

Transportation Company.

CAPITAL, $200,000.

THIS COMPANY HAVING COMPLETED ITS Arrangements for a Transportation business to and from New York, Boston, Albany and Chicago and intermediate places, and believing that they can do the business cheaper, quicker and better than any other company engaged in the business, owning all the propellers and boats to do it, solicit the patronage of the public. Goods will be shipped separately at New York on each line of propellers running from Buffalo, thereby ensuring greater dispatch avoiding delays at Ware houses, and damages in handling and carting.

They have purchased all the steam prop. lers and canal crafts heretofore owned by the following lines, and their former owners have become stock holders in this Company:—

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL

E. D. King, Wm. B. Watson & John S. Fillmore, PROPRIETORS,
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

Saturday Morning, June 9.

KNOW-NOTHING RIOT IN BUFFALO.—The telegraph apprised us, two days since, of the result of the election for Justice of the Superior Court of Buffalo. The present incumbent, Judge HOPKINTON, was a candidate for re-election, having been nominated and supported by the Know-Nothings. His opponent, Recorder MASTEN, was voted for by men of all parties, *opposed* to the Know-Nothings. It was conceded that both candidates were well qualified for the office, and the vote, therefore, was a fair trial of strength between the opposing parties. It stood thus:—HOPKINTON (K. N.) 2143, MASTEN (Anti K. N.) 3554—majority for Masten, 2559, or rather more than *two to one!*

THE STOCKBRIDGE INDIANS.—We publish in another column, the Protest of the settlers on the Indian Lands in Calumet County, against the Treaty made recently with the tribe. It is an able document, and presents a calm and clear view of the case From the following, which we find in the Sheboygan *Journal*, it would seem that the Superintendent favors the view of the settlers:

STOCKBRIDGE INDIANS.—Dr Huebschman, the able, efficient, and attentive Superintendent of Indian Affairs for this state, was here on his return from Calumet County a day or two since, where, he informed us, he had been to make a treaty with the Stockbridge's, ceding back to them their lands. He is not at all satisfied with the treaty, and made it under instructions from headquarters, and thinks it will not be submitted to the Senate in its present shape.

The question at issue is one of great importance to the interests of both parties, and we trust that some means may be found for settling it amicably. The Indian race has suffered enough at the hands of the whites without adding further to it; and now, when a small amount of money, powerful tribe, always friendly to the Americans, desire to remain civilized and partake a landed upon their farming lands, we do hope that some sort of compromise may be effected, which shall do no injustice to the white settlers who have come among them If the latter purchased their lands legally and in good faith, the hand of the General Government certainly should not be stretched out to take them away arbitrarily.

LACROSSE AND MILWAUKEE RAILROAD PUSHING AHEAD.—We learn from the Beaver Dam *Republican* that meetings were held in that town on Thursday and Saturday of last week, to consider the practicability of an route commencing the grading on the Lacrosse & Milwaukee Railroad, west of Horicon. These meetings were addressed by Messrs JUDD and CLINTON and the arguments and explanations made as to the policy and intentions of the Company, were so satisfactory that the farmers of the neighborhood came forward promptly to lend the Company the aid they require to push ahead with the work. The *Republican* concludes by saying:—"The prospect now is that the wheat from this region will be taken to Milwaukee next winter over this road from Noyes' Corners"

It will be seen from our advertising columns that this prospect is likely to be realized, the Company having advertised for proposals, to the 15th inst., for grading the road, ready for the track, from the west end of the bridge over Rock River, at Horicon, to Noyes' Corners, 10 miles further west The specifications and profile of the line may be found at the Engineer's office in this city.

OUR NEIGHBOURS AT STEVENS' POINT.—The Stevens Point *Pinery*, in explanation of some previous remarks on the subjects of Rail Roads in Wisconsin, says in its last issue:

It was by no means our intention to charge upon Milwaukee a want of proper enterprise in the Rail Road improvements of the age—far from it. we spoke with the Sentinel, that we not only with equal resources has contributed more freely, to those improvements than Milwaukee," but we did, and must still, question her policy in this business. In our issue of the 10th inst we took occasion to hint that the Queen City had but two great truck Roads, which ought to engage her main energies. It is hardly necessary we should point them out; all her business men must see them at a glance. The Mississippi on the *West*, and Lake Superior on the *North*.

Milwaukee has her eye on both, and is putting for all her energeries to reach them. It is true, as the *Pinery* says, that we have *three* routes projected to the Mississippi—which it thinks just two too many—but the Western termini of these routes will be wide apart. As to Lake Superior, we quite agree with the *Pinery* that "one road to that point is all that any circumstances will warrant Milwaukee in undertaking;" and we agree to, that this road should go thro' Berlin and Stevens Point

COL. STEPTOE DECLINED.—*It is stated that* Gov. STEPTOE, who was appointed by President Times *Governor of Utah Territory, has declined*, and recommended the re-appointment of Brigham Young, *the Mormon leader. We can scarce* ly believe it possible that Col Steptoe has made such a recommendation; but if he has done so we shall not be surprised to see the President perform such an act of folly, or indeed any other

MILWAUKEE AND WATERTOWN RAIL ROAD.—The Watertown *Democrat* of the 7th instant says:

The contractors along the unfinished portion of the line between this place and Oconomowoc have been engaged in getting the road ready for the iron, and the heaviest part of the work is already finished. Probably as early as the first of next August the road will be handed over to the Company, ready to be put in full operation — When this desirable event takes place, our city will have as the terminus centre of a large and valuable trade, which and much to its wealth and numbers.

THE NEW LAW OF LIBEL IN NEW YORK.—In the late libel case in which the *Sun* was defendant, *already reported to, Judge Roosevelt said*:

The rule is that a party who justifies the publishing of a libel, by attempting to *prove* that what was published was true, must show that in its substance and meaning the facts were as the article states, and although every part of an article claimed to be libelous as a whole, is not proved to be true by the defence, yet if what is left is not *of itself libelous, the defence is made out*. The law allows a man to publish anything of another, provid d it is true, and it is a complete defence that the article is true.

The ruling in this case is just the opposite of the principle recognized in the English law of libel, from which our own has been borrowed, that 'the greater the truth the greater the libel."

THE AMENDS HONORABLE.—The Kenosha *Telegraph* which, in common with all the Milwaukee papers, was "presented" by the Racine *Democrat* for the high crime and misdemeanour of purposely omitting, in the list of dignitaries present at the Lake Shore R. R. Celebration, the name of the Worshipful Mayor of Racine thus humbly apologizes for the unintentional neglect:

So far as we are concerned, the omission arose entirely from the *fact* that we could not, for the life of us, when we wished to pen it, just recollect the name of the individual in question. It is rather a peculiar name, and as yet not very well known to fame, so that, amid a multiplicity of cares we failed to charge our memory with it, as the respec dable city of Racine and its wealth and station of the gentleman, perhaps required.

We hope to be guilty of such grave offences no more. To all other of this "pleasures of memory" *we say*—

Bust 'em;
We'll ne'er again forget the name of Mayor Wustum.

Thanks to the public spirited interposition of the Racine *Democrat* the name of Mayor WUSTUM is no longer unknown to fame—and the newspapers.

☞ We are indebted to Mr. G. W. Mygatt for late New York papers, brought by last night's train.

☞ Punch says that the greatest organ in the world is *the organ of speech in a woman—an* organ too, without a stop!

The Stockbridge Treaty.

STOCKBRIDGE, June 4th, 1855.

EDITORS OF THE MILWAUKEE SENTINEL:

Gentlemen—The citizens of the United States living on the Stockbridge Reservation, in the County of Calumet and State of Wisconsin, the most of them on farms bought in good faith from the Stockbridge Indians, who were made citizens of the United States by an Act of Congress, approved March 3d, 1843, having been notified by the Commissioner of Indian Affairs, that the right by which they held their land was no title —that the money which they paid in purchase would be refunded to them with interest at 6 per cent. per annum, and that he was authorized by the Government to cede by treaty the whole of the Stockbridge Reservation to the Stockbridge Indians,—held on the 30th day of May, 1855, in the town of Stockbridge, a large and enthusiastic public meeting to devise ways and means whereby to secure their rights.

A Committee consisting of RUFUS P. EATON, JAMES SWEET, CYRUS W. TRUESTON, JOHN DEAN, ENOS MCKENZIE, and THOMAS MCLEAN, was appointed to draw up a protest against the proposed treaty.

The following protest was reported by the Committee, and unanimously adopted by the meeting,—and a Resolution passed that a copy of the same be sent to the Editors of the Milwaukee *Sentinel*, with a request to publish.

Accordingly we send you enclosed with this, a copy of the protest, hoping that you will give us a hearing in your wide-spread and influential journal. By so doing you will oblige all the citizens of the Stockbridge Reservation

Very Respectfully,
WM. FERGUSON, Chairman.
BENJ. J. SWEET, Secretary.

To the Commissioner of Indian Affairs of Wisconsin:

SIR:—Whereas we have been informed by you, that the right by which we *hold possession* of our farms is no title, and is held void by the existing power at Washington, and you having given notice to the Stockbridge Indians, that you were authorized by the General Government to cede to them the whole of the town of Stockbridge, by their consenting that some $20,000 now due them, under the treaty of 1838, should be appropriated in part remuneration for the payments made to them by the white people for them lands, and the improvements the whites have made, and also *added* that you could appraise, that in the event of a treaty the General Government would pay $20,000 more for the same purpose: We do respectfully remonstrate against any such treaty for the following reasons:

1st. Your remonstrants have purchased said lands in good faith of the Stockbridge Indians, *or their grantees, and have paid therefor, a fair* and honest price, in the full belief that both parties were acting in accordance with the laws of the country.

And they especially rely upon the Act of Congress as proved March 3d, 1843, the last section of which provides that said lands "shall be divided among the different individuals composing *said tribe of Stockbridge Indians*, and may be held by them separately and severally in fee simple, after such division shall have been made in the manner hereinafter mentioned." It is true that section 5 provides further, that upon the requirements of the Act being complied with, patents should be issued to the several individuals named in the report of the Commissioners, *and it being admitted on all hands that the law* was fully executed it is respectfully claimed that such compliance virtually vested the title to the lands in the several individuals without waiting for the issue of the patents.

As you state (and we believe truly) that all the points in the case resolve themselves into this—What force and effect is to be given to the Act of 1843, and as we believe you have been misled as to some of the facts, we will state what some of us *know* and the balance *believe* to be true.

The Act is approved March 3d, 1843, and the election occurred on the first Monday in April of the same year, which will corroborate our statement that it was not received until the Saturday night prior to the election, and then *was immediately* opened to all for examination

You inform us, that you believe the whole proceedings under *the law*, were a fraud upon the majority of the tribe, and seem to base that belief chiefly upon the affidavit of J. S. Fisk, who states in his affidavit, that he was the retained attorney of the Indian party.

Now, we say, that said affidavit is not true; a number of us were present and saw the whole election, and do sincerely believe that it was conducted by the Hon. J. S Horner candidly and impartially, and we must say that we were surprised to see the integrity and capacity of a man whom General Jackson deemed worthy to receive the appointments of Gov. of Michigan, Secretary of Wisconsin, and Register of the Green Bay Land Office, entirely set aside upon so slight evidence.

As to the enumeration *certified by Mr.* Marsh in April 1843, we say that there were living here at that time, a number of families who had sold out and agreed to emigrate to Missouri, and some Oneidas who were contained in said list, which we think will sufficiently explain any supposed contradiction to J. S Horner's certificate of election.

Although *we have heard complaints from the* Indian Party still we have also seen them claiming the benefits of the land of 1843, in large bodies and in a public manner, by swearing in their votes at our General Elections, not only the rank and file, but also their *Sachems whilst in office.*

Our Circuit Court has rendered judgment against them, *when able defended*, and the Indian Agents, and even the Commissioner of Indian affairs when here last year advised some of us to proceed with our improvements.

As to the Constitutionality of the law of 1843, *we saw* that when it was under consideration in the House of Representatives—John Quincy Adams, then a member, started the objection that it was an infringement of the provisions of the Constitution as to naturalization, but he was answered at once, that they (the Indians) were citizens by birth, and that this Act was simply to enable them to vote and to hold their lands in severalty, with which we suppose he was satisfied as he made no further objection.

And again in 1848, we saw here Commissioners specially appointed by the same power as yourself holding a treaty with the objects position of the Stockbridge, in which it was expressly stipulated that patents should be issued for the lands allotted to the citizen portion, and in fact nearly all the lands which any of the Indians had conveyed, in accordance with a schedule thereto attached, any error in which should be attributed to the *fact* that *some of the claimants* had left, with the impression that no treaty would be made at that time.

But we see that the Commissioner has taken the ground that none of the Stockbridges had become citizens, and that consequently no patents were to issue But we also see that the 7th section of the Act of 1843, provides for the filing of seven copies of the Report of the Commissioners, and maps, on or before the first day of January, A. D., 1844, that then "the said Stockbridge Tribe of Indians, and each and every one of them shall be deemed to be, and from that time forth are declared to be citizens of the United States to all intents and purposes." &c.

Now we say that we believe and have never heard it denied, that there was a full, complete and literal compliance with all the requisites of said Act, and that as a necessary consequence, they were citizens of the United States beyond a doubt, but even if they are not citizens technically speaking, is not the name without the description of the person sufficiently indicative of the intent of the contracting parties to justify the conclusion that the President was bound by that stipulation to issue the patents?

If then the act of Congress, approved March 3d, 1843, does not contravene any of the provisions of the Constitution of the United States, and has been literally complied with, did not that compliance vest in the Stockbridge Indians the right to hold their lands in severalty and to convey the same, and also all other rights, of citizens of the United States, so completely, that Congress could not by repealing divest them of any portion of said rights? This position we are informed was taken by the most prominent legal men in this part of the State, and in consequence thereof none of the Stockbridges registered themselves under the repealing act of 1846.

We have been informed that the Supreme Court of the United States (8 Wheaton 464) say "That to hold that the repeal of a law, divested rights acquired under it would overturn "the best established doctrines of the law and "esp the very foundations upon which property "rests," and that the same doctrine is reiterated in 10 Wheaton 181.

Looking therefore at the act of 1843, as free from exception, only as to the question of its policy, and believing as we do, that it has been *lolly, lately*, mannedly and literally complied with, that the General Government has at least until quite recently held it to be good, that our own Courts have taken jurisdiction of the Stockbridges generally, that our State has for years exacted and received from this town her proportion of the state taxes, that nearly every individual of the so-called Indian Party, has conveyed land and voted, most of them under the Oath that they were citizens of the United States, that the General Government under the Treaty of 1848, stipulated to patent the lands not ceded to them by that treaty, that the principle upon which it is proposed to adjust the claims of the *whites*, would be grossly unjust, inasmuch as it would take the fruits of their hard labor and persevering industry—against their consent and without fair compensation, and transfer the same to red men, a large portion of whom have been quietly lushing on whilst we have been laboring and economising to our utmost ability, that we might be able to pay for and improve a home for ourselves and families, and all this to be done, that the same may be reconveyed to a tribe of men who it is not presumed, have paid, nor can pay for, nor make a judicious use of the same in its present improved state.

And we further say, if the proposed treaty is made and confirmed, that in our *opinion* the sum proposed to be applied to the adjustment of our claims, will not reach *one* half the sum required by the conditions put forth; and we further say, from our acquaintance with its character, that we do *not believe* that the Senate of the United States would ratify said proposed treaty, after being informed of the *facts* in the premises—that in our opinion *the best interest* of the Stockbridges would not be consulted by entering into a treaty at this time, because its effect would be to keep them in suspense, and thereby check whatever impulse to labor they might otherwise feel.

And we further say, that it must, we think, be apparent to all, that to allow this beautiful tract of land, *covering thirty-two square miles* on the east shore of Lake Winnebago, to be occupied and controlled by distinct laws and people, independent of the state, with the check which it must necessarily be on civilization and improvements of a public nature, situated as this town is in the centre of the county where our courts are held, would not be counterbalanced by all, by any trifling advantages *which might be claimed* would accrue to the Indians by their remaining here.

And we further say, that since we have been settled here, land has risen so much in value, that we could not now provide homes, as well as when we came here, even if we paid interest at the rate of 25 per cent per annum, without any deduction for rent.

All Aboard.

On Saturday last our citizens enjoyed a rare treat—a steamboat ride on the Wisconsin, in the little steamer *Northerner*. On the polite invitation of Messrs Reed & Weston, the owners, at 9 o'clock nearly 400 ladies and gentlemen of the village stepped aboard, at the foot of Main St., finding everything in the most perfect order.—Pointing its prow up the stream under a full head of steam, the little *Northerner*, with its living many freight, pushed gaily off. The current is strong, and at many of the rapids, equal to one or 2 miles an hour, the double power of the boat were soon dispelled, as she *wheeled on every rapid with ease.*

Her destination was WYLIES. The day was fine, and the party was a happy one The officers of the boat did the honors with grace—the engineer and hands appreciated the occasion, and put the boat through in her best trim, occupying about three hours from the Point to Wileys, a distance of 16 miles. Music and dancing beguiled the time, and the party were astonished at soon finding themselves at the point of destination

If the party expected to take mine host Mr Wyllis by surprise, he really did them so, by the excellent dinner and refreshments which awaited them The entertainment at his house was no small part of the days amusement.

At two o'clock, Capt. Reed summoned his friends once more on board, and heading the *North star* to the southward, landed them all in safety at the foot of Main street, a little before seven

The scenery on this river is beautiful. Between Stevens Point and Wylies, are several locations that attract the eye of the traveler, and engage the attention of the speculator No finer sites for residences can be seen on any river, than these.

This trip has proved three things—that Capt. Reed has in him the elements of a true gentleman—that our people enjoy a gala day with good taste, and that Upper Wisconsin can be navigated with steam.—[Steven's Pt. Pinery, May 31.

Weather—Prices—Lands—Crops—Money—Labor—Mercantile Business.

Well, we have been refreshed and profited by a good soaking rain— consumer and producer will share alike its benefits. People began to fear a drought and famines and thought grasping their flour cats and corn with a tighter hand. Now *they will let loose freely, and prices will not go* up higher at present. Cultivate largely, farmers, for you will get high prices for one or two years. All the signs are in your favor, but do not run in debt for land at present prices. Sell off and your surplus lands to the new settlers and pay what you owe. Land speculations are about to close All rise over present rates will *be fixed—fictitious*, and will only provoke a back-action. Everything has its intrinsic value, and all above or under that value must be taken or added to, sooner or later.

Crops, though merely in their primary stages, show well, and unless something not foreseen befalls them, will be heavy. We never knew better prospects for crops

Money is exceeding plenty and there is no necessity for an idle hand. Common laborers command the highest rates of wages they ever did in these parts. In all mechanic branches wages for labor and prices of products are very high

Merchants are astonished at the business they do, and their spring purchases will fall far be*hind the demand. They will have to replenish* every week or two. They are totally unprepared for the emigration, and, like the philosopher who loitered, waiting for the mountain going to pass by that he might cross, are also wanting the invisible which seems rather to avoid than abate.—[Grant Co. Herald.

THE WINNEBAGOES.—Gen. Fletcher was in the city yesterday, and busily engaged in perfecting arrangements for the complete removal of the Winnebagos to their new home. The Minnesippe bands started on Wednesday, with everything necessary for them, and yesterday General Fletcher bought teams and cattle to place on the new farm. The Long Prairie Indians have not come forward as yet, but are expected every day. Gen. Fletcher has some $24,000 of Annuity money, which will be paid out as soon as the Indians can be collected at the new Agency.—[Minnesota Pioneer.

FIRE.—On Tuesday morning last, about 12½ o'clock, a fire was discovered in S. H. Clement's Jewelry Store, in Crane's block, Turtle street.—The doors were forced open and the flames extinguished, but not until the inside of the store was badly scorched Four persons sleeping in the room immediately over the store, were nearly suffocated by the smoke, and it was with difficulty some of them were aroused. How the fire caught is not known, but it is supposed to have been the work of an incendiary. Loss not yet ascertained. Mr. C had an insurance on his stock and fixtures in the amount of $4,000—$1,500 in old Ætna, $1,500 in Hartford Fire Ins. Co., and $1,000 in another Company.—[Beloit Journal

FLYING TRANSACTION.—The Albany *Atlas* relates the following as an actual occurrence: "A German, named Henry——, appeared at the Police Office this morning, desiring to know in what case he was wanted as a witness. His story was, that a month since he removed from the city to Wisconsin; that a few days after he arrived there he was *knocked down by a stranger*, who showed him a subpœna, telling him he was wanted as a witness here. He started for this city next day and arrived here yesterday. He wants to know who he is to swear against."

RAINS IN MINNESOTA.—The recent rains have been to the farmers in many a heart in this Territory, and it is certain that it has been the salvation of the farming interest. Everything that grows out of the earth wears its freshest hue, and there is promise now of a good planting season and an abundant result.—[Minnesota Pioneer.

CROPS.—Farmers from the neighborhood adjacent to St Paul inform us that the crops are *coming forward* finely since the late rains. Upon the newly opened farms across the river, the grain fields look particularly promising.—[Minnesotian.

BACKWARD SEASON IN VERMONT.—From a gentleman who left Vermont on the 22d ult., and arrived here on the 30th, we learn that the spring there has been uncommonly backward. At the time he left, not a tree or herb had bloomed, except the Wild Cherry. Our Yankee friend's opinion of Lancaster and Wisconsin is very high. He says the country is an improvement upon any conception of Paridise he has ever formed, even in his dreaming moments.—Grant Co. Herald

THE SUGAR SHEARING FESTIVAL.—*We understand the Committee have made arrangements for* getting the tent used by the State Agricultural Society for the use of the Festival on the 14th and 15th inst. This will afford good accommodations for the large number that will undoubtedly be here We believe the ground is also selected upon which to erect it but we have not as yet learned the exact locality.—[Whitewater Gazette.

☞ While some of the students of Geneva College were bathing Thursday afternoon a culvert near Geneva, one of the number, named Kavanah, son of a lawyer of Lockport, requested of a companion to place his hand on his heart and felt it beat—and while in the act of doing so he dropped dead at his feet. His death was caused by going into the water when the body was too much heated.—[Buff. Com'l.

FATAL EXPLOSION.—We learn that on Friday last, about 4 o'clock P. M., the boiler of the steam ferry at Guttenberg, exploded, injuring two of the hands and several passengers, besides fatally, it is feared injuring Mr. Morrison, the Engineer. Mr. Morrison, formerly ran the steam ferry Gregnire at *Dubuque.*—(*Dubuque* Herald June 5th.

COLLINS' NEW STEAMSHIP.—Mr. Collins having completed a contract with Messrs. George and James R. Steers, for the construction of another large steamer for the New York and Liverpool line, as a substitute for the "Arctic," (being the fifth built for this line) the contractors are actively engaged in preparations to lay the keel, at Jacob A. Westervelt's old yard, foot of Stanton street. A large proportion of the timber is already on the spot, and more is landing The pieces of white oak for floor timbers, &c., were cut last January in the forests of Maryland and Virginia, and are considered remarkably fine sticks.

We are informed that the new steamer is to exceed in magnitude any of her predecessors, and will no doubt *stand peerless among* the fleet of American steamships It is said that Stillman, Allen & Co., will build the engines, and that oscillating engines will probably be adopted.—The hull will be ready for launching by the 28th of February next, should anticipations be realized, and three or four months more will suffice to complete the vessel. Oscillating engines are preferred on account of their occupying less space, and requiring a smaller weight of metal in their construction.

Mr. George Steers, the builder, has had a brilliant career. A few years ago he was a mechanic in humble circumstances, chiefly engaged in constructing sail boats—now he stands among the foremost in his profession, and his name is known *in distant lands. Having* become skilled in his art, he constructed a yacht which bore off the palm, when the representatives of all enlightened nations were competing for the mastery.—As a sequence he was entrusted with the building of the largest of the six steam frigates ordered by Congress, (the Niagara,) and which promises to be the pride of our navy Ere she is ready for launching, *fresh* accessions are made to his laurels, and he now commences a steamship for the merchant marine, which will doubtless reflect honor upon the builder and the country.—[Journal of Commerce.

Statistics of Wausau, Marathon Co., Wisconsin.

The *village*, about 40 miles North of Stevens' Point, is the principal town in Marathon county and will undoubtedly, in a few years be the most central point to all the upper country The population embraces several gentlemen of the greatest energy and enterprise, with abundant capital to back up their movements. It is the residence of our Representative to the Legislature, the *Hon. W. D. Melndoe*, himself a host in all that pertains to the settlement and development of the resources of a new county.

Besides the extensive water power on the Big Bull Falls, perhaps the very best on the river, the site has the advantage of being surrounded with the most valuable pine lands in the whole Pinery. Farming lands, also, of the very best quality, abound a short distance from the streams, the soil being superior to that below, comprising a mixture of clay, gravel and loam.

There is a good road from Stevens Point to Wausau, much travelled, and settlers are going up in great numbers to Marathon County.

Port Washington Brick Yards.

We have just returned from a visit to the several brick yards of this village, where we found the brick makers busily employed in moulding clay suitable for building purposes. We must here add that we were greatly surprised on beholding the enormous quantity of brick already moulded, dried and put into kilns ready for burning, since the opening of spring.

Binke & Matthews have one large kiln containing some 300,000 now ready for burning, in their east yard. In their west yard they have commenced one, which they say, with favorable weather, dry and slashing of course, may be in readiness for the wood and torch by the last of next week. These brick are being manufactured for Alanson Sweet & Co., of Milwaukee, and are to be used in the construction of Light Houses and public buildings which are to be erected the present season.

In the north yards, Messrs Richards & Wilmot are driving the "brick works" in a manner that would do credit to places of thrice the inhabitants of Port Washington. They manufacture pressed brick of a superior quality. We think they cannot be excelled in point of size, smoothness, and the rich cream color of the common clay, by any yards in the state, not excepting the beautiful brick made in the city of Milwaukie.—*Ozaukee Advertiser.*

THAT BRICK BLOCK.—Mr. Charles Zuegel has this week broken ground for the foundation of his Brick Block, corner of Eighth Street and New York Avenue. This Block, is to be 100 feet in depth on New York Avenue, 52 feet front on Eighth Street, and three stories high—the lower story being intended for Stores, and the upper stories for Offices, &c. We learn that it is Mr. Zuegel's intention to put up two stores adjoining them on the North, next season, thus making the whole something larger than Otten's block.

He has also recently sold 33 feet on Eighth Street adjoining the alley, by 170 feet deep, to a gentleman from Milwaukee, for $1000, on the express condition that he shall build a similar brick building on the premises within one year. This will give a continuous Block of Stores of 170 feet front and 100 feet in depth.—[Sheboygan Times.

ANOTHER NEW HOTEL.—No sooner have we chronicled the completion and formal opening of that splendid Hotel THE BRIGGS HOUSE, than we are called upon to note the commencement of another Hotel of equal magnificence. The site of the latter will be the Northwest corner of Michigan Avenue and South Water street, where the ground has been prepared and is now in readiness to commence the work. The size of the new Hotel will be 131 feet long by 70, and it will be six stories high. The material will be the best Milwaukee pressed brick. The plans and drawings of the building executed at the office of Mr. Olmstead, Architect, indicate an edifice that will compare favourably, in every part cular, with the best hotels in the West. It is for Hon. T. Richmond, of this city.—[Chicago Tribune.

U. S. Troops for the West.

Four companies of the 2d Regiment of U. S. Infantry, under command of Gen HITCHCOCK, went through the city yesterday en route for Fort Pierce, Nebraska Territory, 800 or 900 miles above Fort Leavenworth They were from Carlisle Barrack, Pa. They came here by the Michigan Southern Road, and left by the Chicago and St. Louis Road. Two other companies of the same regiment are already at Fort Pierce. The officers accompanying these companies are Gen. Hitchcock, Major Wessels, Captains Lovell, Davison, and Gardiner, Lieutenants Page, Swanney, Smith, Curtiss, and O'Connell, all of the 2d Infantry; Dr. Magruder and Lt Sheppard 2d Division.—[Chicago Tribune

THE WHEAT FLY IN MICHIGAN.—Our Detroit Exchanges bring *numerous extracts from the* country papers of Michigan, by which it appears that the fly is doing immense damage to the wheat in Hillsdale, Livingston, Cass, Barry, and other counties. The Kalamazoo *Gazette* says:

We had no previous conception of the blighting influence which has so suddenly swept over our wheat fields. The ruin is almost total.—Fields, that three or four weeks ago looked beautifully and thrifty, and gave promise of an abundant harvest are now yellow, blighted, and withered. But few pieces have escaped; and *those that have, owe their immunity* principally to late sowing, or the kind of seed used; the Mediterranean, in cases, we believe, being untouched. One quarter of a crop is the most that can be depended upon Many farmers will not even realize this—the destruction in many cases being thorough and entire.

SUICIDE OF S. L. PETRIE.—*Yesterday afternoon* Mr. Petrie was found suspended by the neck, and dead, in his barn near his house, about three miles from the city on The Newburgh road. Coroner Marseilles was called, and the verdict of a jury empannelled by him was, "came to his death by his own hands, while under aberration of mind." For a week or two, as we are informed, Mr. Petrie had been in ill health, was depressed in spirits—the latter owing partly, no doubt, to the fact that he had met with a loss of $76,000 by an unprofitable investment—and was quite active in settling up his business matters, saying frequently that he intended to destroy himself. His conduct, it seems, excited very little notice, and none had expected that he would thus have taken his life. He long had been a resident here, and after a residence of many years of active business, had accumulated a considerable, if not a large property.—[Cleveland Herald, June 4.

THE GROWTH OF OUR CITY.—We last week copied an article from the Fond du Lac *Union*, stating as an evidence of the rapid growth of that city, that the Editors, in a drive around town, counted twenty-seven *buildings* in progress of erection. A friend of ours, in alluding to it, said that in taking a walk around the city, a few days since, he had the curiosity to count the *dwellings* going up, and the number was nearly *fifty*, exclusive of barns, shops, Mills, &c. This we think, considering that every one of these is building by some one who intends to occupy it himself, indicates a pretty rapid growth for a city seven years old "from the stump."—[Oshkosh Democrat, June 8.

INFORMATION WANTED.—We have been request to ask for information from some one who is able to give it, in relation to the practice of the City Authorities, under the Ordinance on page 119 of the "Charter and Ordinances," edition of 1853, which reads, in part, as follows:

Sec. 3. That it shall not be lawful for any person or persons to exhibit " " " " music, entertainments; without first having obtained license therefor, and if any person shall offend &c., (penalty follows.)

Sec 2. It shall be the duty of the Mayor to grant the license herein provided for, " " (if not contrary to good order) " and he shall at his discretion fix the sum to be paid for such license. (No license to be issued till the Treasurer's receipt for the sum so fixed is presented.

What our inquiring friends ask is, to know whether this ordinance is carried out in its letter and spirit, by a fair business transaction, and the charging of a fixed and reasonable sum—supposed to be for police expenses, and going into the treasury of the city—or whether it is the practice to make all the managers and performers at entertainments most unreasonably in the way of tickets for all the city officers, no money being charged for license, and going into the Treasury. We are told that Mrs. MACREADY was obliged to hand over 21 tickets for the officers, upon which they claimed the privilege of introducing two and in some cases three persons. And, further, that for PARODI'S Concert on Thursday evening, no less than 25 *double* tickets were demanded!—If these things are so, and we have no doubt of the *facts*, we decidedly object to their continuance. Such artists as our people most desire to hear will very soon shun our city altogether, if such impositions are continued. Besides, we see no right given by the Ordinance to the Common Council to make such nice little arrangements.

Theatre at Concert Hall.

The new Theatre in Concert Hall, opposite the American House, 4th Ward, will be opened to the public this evening The bill includes the popular play of "William Tell;" the farce of "A Kiss in the Dark," with an interlude of comic singing and dancing by Miss Arlene Allen.—*Good order will be preserved* and the proprietors will spare no efforts to render their establishment worthy of patronage.

PARODI AND STRAKOSCH.—These unrivalled artists left our city yesterday morning for Madison, where they were to give a Concert last evening. They go thence to Janesville, Rockford and Galena, giving Concerts at each place If time permits they will pay Milwaukee another visit and give our citizens a repetition of the delicious musical treat of Thursday evening.

Common Council.

At a meeting of the Council last evening, a communication was presented from H. W. Gunnison, U. S. Harbor Agent, stating that in the plans and work done, there has been such a departure from the government plans that the U. S appropriation cannot be obtained. Referred to the Harbor Committee.

Ald Hadley, from Committee, reported in favor of loaning the city credit for $166,000 to the Milwaukee & Horicon Railroad Co., and submitted an ordinance, which passed. Ayes 10, noes 0 It will be found in our advertising columns.

Ald Powers presented a Health Ordinance.

The Committee on Harbor matters reported, that the actual work done, besides materials furnished, is $5,000; that the contractor will not be able to finish the work at the time specified in his contract; that an arrangement is proposed between him and C. D. Barton, by which the contractor assigns the harbor and dredging contract, if the City will consent. The City to make the sum to be paid about $59,000, for the harbor, and *extend the time to July 1st, 1856.*

Ald Mallory introduced a resolution accepting the proposition.

Ald Ludington was willing to extend the time and allow the assignment, but he thought that the city had no right to pay an additional $10,000.

After some further discussion, the resolution was referred to the City Attorney.

We learn that Mr. BARTON, who proposes to take the contract, is abundantly able to put the work through speedily.

LIME, WATER LIME, PLASTER, &c.—Messrs. A. L. BRUNER & Co., whose card is in our paper, and who have in a short time, by fair dealing and steady attention to business, built up a thriving trade,—have enlarged their operations by offering to the public a stock of Lime, Plaster, &c. *We commend them to our readers.*

CHILLICOTHE ROUTE—QUICK TRIP.—A farmer from Northern New York, who left Ogdensburgh on Monday last at 9 A. He spoke in high terms, of the beauty, speed and comfort of this new route to the west.

TURNER'S FESTIVAL.—The Milwaukee Turner Society, a German organization, hold their Annual Festival on Monday next at the Milwaukee Garden, on the Watertown Plank Road. They expect delegations from Chicago, Racine, Madison and from different towns in Ozaukee and Washington Counties.

COLLISION WITH WALKER'S POINT BRIDGE.—The steamer *Key Stone State* yesterday came in collision with Walker's Point Bridge, while being towed down the river, doing damage to the amount of sixty dollars to the bridge, for which a suit is, or will be brought on behalf of the city. The steamer is also damaged to some extent, and we understand the captain intends to sue the city, claiming heavy damages, but on what grounds we are not sufficiently apprised to state distinctly. The question will probably be "who sit sick first?"

ANOTHER HANDSOME STORE.—Last August, Mr. J. H. SILKMAN suffered with the rest of the occupants of the U. S. Block, a thorough burning out by the destructive fire of that date. He immediately took a cheap store on Spring street, the best that could be had at the time, and kept straight on with business. This spring he commenced the erection of a fine four story building on the site of his *old* store. 152 East Water street, and RYCKRAFT as mason, and SPALDING & FOOTE as joiners, have pushed it right along, till it is opened to the public this morning, and Mr. Silkman will be glad to see his friends to-day and hencef orth, at his old place. The store is a very handsome one, with full glass front to the first story, the principal flo

KNOW-NOTHING RIOT IN BUFFALO.—The telegraph announced us, two days since, of the result of the election for Justice of the Superior Court of Buffalo. The present incumbent, Judge HOPKINS, was a candidate for re-election, having been nominated and supported by the Know-Nothings. His opponent, Recorder MASTEN, was voted for by men of all parties, *opposed* to the Know-Nothings. It was conceded that both candidates were well qualified for the office, and no vote, therefore, was a fair trial of strength between the opposing parties. It stood thus:—HOUGHTON (K. N.) 2143, MASTEN (Anti K. N.) 3662—majority for Masten, 2550, or rather more than five to one!

THE STOCKBRIDGE INDIANS.—We publish in another column, the Protest of the settlers on the Indian Lands in Calumet County, against the Treaty made recently with the tribe. It is an able document, and presents a calm and clear view of the case From the following, which we find in the Sheboygan *Journal*, it would seem that the Superintendent favors the view of the settlers:

STOCKBRIDGE INDIANS.—Dr Huebschmann, the able, efficient, and attentive Superintendent of Indian Affairs for this state, was here on his return from Calumet County a day or two since, where, he informed us, he had been to make a treaty with the Stockbridge's, ceding back to them their lands. He is not at all satisfied with the treaty, and made it under instructions from head-quarters, and thinks it will not be submitted to the Senate in its present shape.

The question at issue is one of great importance to the interests of both parties, and we trust that some means may be found for settling it amicably The Indians have has suffered enough at the hands of the whites without adding further to it; and now, when a small amount of a once powerful tribe, always friendly to the American people to remain civilized and pay their livelihood upon their farming lands, we do hope that some sort of compromise may be effected, which shall do no injustice to the white settlers who have come among them If the latter purchased their lands legally and in good faith, the hand of the General Government certainly should not be stretched out to take them away arbitrarily.

THE CHICAGO AND MILWAUKEE RAILROAD PUSHING AHEAD.—We learn from the Beaver Dam *Republican* that meetings were held in that town on Thursday and Saturday of last week, to consider the practicability of at once commencing the grading of the La Crosse & Milwaukee Railroad, west of Horicon. These meetings were addressed by Messrs JUDD and CHESON and the arguments and explanations made as to the policy and intentions of the Company, were so satisfactory that the farmers of the neighborhood came forward promptly to lend the Company the aid they require to push ahead with the work. The *Republican* concludes by saying:—"The prospect now is that the wheat from this region will be taken to Milwaukee next winter over this road from Noyes' Corners"

It will be seen from our advertising columns that this prospect is likely to be realized, the Company having advertised for proposals, to the 15th inst., for grading the road, ready for the track, from the west end of the bridge over *Rock River*, at Horicon, to Noyes' Corners, 10 miles further west The specifications and profile of the line may be found at the Engineer's office in this city.

OUR NEIGHBORS AT STEVENS' POINT.—The Stevens Point *Pinery*, in explanation of some previous remarks on the subjects of Rail Roads in Wisconsin, says in its last issue:

It was by no means our intention to charge upon Milwaukee a want of proper enterprise in the Rail Road improvements of the age—far from it we agree with the Sentinel, that "no city with equal resources has contributed more freely to those improvements than Milwaukee," but we did, and must still, question her policy in this business. In our issue of the 10th inst we took occasion to hint that the Queen City had but two great trunk Roads, which ought to engage her main energies. It is hardly necessary we should point them out; all her business men must see them at a glance The Mississippi on the *West*, and Lake Superior on the *North*.

Milwaukee has her eye on both, and is putting for all her energeries to reach them. It is true, as the *Pinery* says, that we have *three* routes projected to the Mississippi—which it thinks just too many—but the Western termini of these routes will be wide apart. As to Lake Superior, we quite agree with the *Pinery* that "one road to that point is all that any circumstances will warrant Milwaukee in undertaking" and we agree to, that this road should go thro' Berlin and Stevens Point

COL STEPTOE WHO was appointed by President Pierce *Governor of Utah Territory*, has declined, and recommended the re-appointment of Brigham Young, the Mormon leader. We can scarcely believe it possible that Col Steptoe has made such a recommendation; but if he has done so we shall not be surprised to see the President perform such an act of folly, or indeed any other

MILWAUKEE AND WATERTOWN RAIL ROAD.—The Watertown *Democrat* of the 7th instant says:

The contractors among the unfinished portion of the line between this place and Oconomowoc have been engaged in getting the road ready for cars, and the heaviest part of the work is already finished. Probably as early as the first of next August the road will be handed over to the Company, ready to be put in full operation — When this desirable event takes place, our city will be in the position of the centre of a large and valuable trade, which will much add to its wealth and numbers

THE NEW LAW OF LIBEL IN NEW YORK.—In the late libel case in which the *Sun* was defendant, *Attorney General Judge* ROOSEVELT said:

The rule is that a party who justifies the publishing of a libel, by attempting to prove that what was published was true, must show that in all its substance and meaning the facts were as the article states, and although every part of an article claimed to be libelous as a whole, is not proved to be true by the defence, yet if what is left is not *of itself libelous, the defence is made out* The law allows a man to publish anything of another, provided it is true, and it is a complete defence that the article is true.

The ruling in this case is just the opposite of the principle recognized in the English law of libel. It is that which our's has been borrowed, that "the greater the truth the greater the libel."

THE AMPERE HOMICIDE.—The Kenosha *Telegraph* which, in common with all the Milwaukee papers, was "presented" by the Racine *Democrat* for the high crime and misdemeanour of purposely omitting, in the list of dignitaries present at the Lake Shore R. R. Celebration, the name of the Worshipful Mayor of Racine, thus humbly apologizes for the unintentional neglect:

So far as we are concerned, the omission arose entirely from the fact that we could not, for the life of us, when we wanted to pen it, just recollect the name of the individual in question. It is rather a peculiar name, and as yet not very well known to fame, so that, amid a multiplicity of cases we take to charge our memory with it, as the respective duties of city of Racine and the wealth and station of the gentleman, perhaps require us.

We hope to be guilty of such grave offences no more. To an other of the "pleasures of memory" we say—

Host 'em;
We'll never again forgot the name of Mayor Wustum.

Thanks to the public spirited interposition of the Racine *Democrat* the name of Mayor WUSTUM is no longer unknown to fame—and the newspapers.

☞ We are indebted to Mr. G. W. Mygatt for late New York papers, brought by last night's train.

The Stockbridge Treaty.

STOCKBRIDGE, June 4th, 1855.

EDITORS OF THE MILWAUKEE SENTINEL:

Gentlemen—The citizens of the United States living on the Stockbridge Reservation, in the County of Calumet and State of Wisconsin, the most of them on farms brought in good faith from the Stockbridge Indians, who were made citizens of the United States by an Act of Congress, approved March 3d, 1843, having been notified by the Commissioner of Indian Affairs, that the right by which they held their land was no title —that the money which they paid in purchase would be refunded to them with interest at 6 per cent. per annum, and that he was authorized by the Government to cede by treaty the whole of the Stockbridge Reservation to the Stockbridge Indians,—held on the 30th day of May, 1855, in the town of Stockbridge, a large and enthusiastic public meeting to devise ways and means whereby to secure their rights.

A Committee consisting of RUFUS P. EATON, JAMES SWEET, CYRUS W. THAYER, JOHN DEAN, ENOS MCKENZIE, and THOMAS MCLEAN, was appointed to draw up a protest against the proposed treaty.

The following protest was reported by the Committee, and unanimously adopted by the meeting,—and a Resolution passed that a copy of the same be sent to the Editors of the Milwaukee *Sentinel*, with a request to publish.

Accordingly we send you (enclosed with this, a copy of *the protest*, hoping that you will give us a hearing in your wide-spread and influential journal. *By so doing* you will oblige all the citizens of the Stockbridge Reservation

Very Respectfully,
WM. FERGUSON, Chairman.
BENS. J SWEET, Secretary.

To the Commissioner of Indian Affairs of Wisconsin:

SIR:—Whereas we have been informed by you, that the right by which we hold *possession* of our farms is no title, and is held void by the existing power at Washington, and you having given notice to the Stockbridge Indians, that you were authorized by the General Government to cede to them the whole of the town of Stockbridge, by their consenting that some $20,000 now due them, under the treaty of 1848, should be appropriated in part remuneration for the improvements made to them by the white people for their lands, and the improvements the whites have made, and also added that you could state, that, in the event of a treaty the General Government would pay $20,000 more for the same purpose. We do respectfully remonstrate against any such treaty for the following reasons:

1st. Your remonstrants have purchased said lands in good faith of the Stockbridge Indians, *or their grantees, and have paid therefor, a fair* and honest price, in the full belief that both parties were acting in accordance with the laws of the country.

And they especially rely upon the Act of Congress approved March 3d, 1843, the first section of which provides that said lands "shall be divided among the different individuals composing "and tribe of Stockbridge Indians and may be "held by them separately and severally in fee "simple, after such division shall have been made "in the manner hereinafter mentioned." It is true that section 6 provides further, that upon the requirements of the Act being complied with, patents should be issued to the several individuals named in the report of the Commissioners, and it being admitted on all hands that the law was fully executed it is respectfully claimed that such compliance virtually vested the title to the lands in the several individuals without waiting for the issue of the patents.

As you state (and we believe truly) that all the points in the case, resolve themselves into this—What force and effect is to be given to the Act of 1843, *and as we believe you have been* misled as to some of the facts, we will state what some of us *know* and the balance *believe* to be true.

The Act is approved March 3d, 1843, and the election occurred on the first Monday in April of the same year, which will corroborate our statement that it was not received until the Saturday night prior to the election, and then was immediately opened to all for examination

You inform us, that you believe the whole proceedings under the law, were a fraud upon the majority of the tribe, and seem to base that belief chiefly upon the affidavit of J. S. Fisk, who states in his affidavit, that he was the retained attorney of the Indian party.

Now, we say, that said affidavit is not true; a number of us were present and saw the whole election, and do sincerely believe that it was conducted by the Hon. J. S Horner candidly and impartially, and we must say that we were surprised to see the integrity and capacity of a man whom General Jackson deemed worthy to receive the appointments of Gov. of Michigan, Secretary of Wisconsin, and Register of the Green Bay Land Office, entirely set aside upon so slight evidence.

As to the *enumeration* certified by Mr. Marsh in April 1843, we say that there were living here at that time a number of families who had sold out and agreed to emigrate to Missouri, and some Oneidas who were continued in said list, which we think will sufficiently explain any supposed contradiction to J. S Horner's certificate of election.

Although we have heard complaints from the Indian Party still we have also seen them clamoring the benefits of the land of 1843, in large bodies and in a public manner, by swearing in their votes at our General Elections, not only white men and all, but also their *Sachems whilst in office.*

Our Circuit Court has rendered judgment against them, when *ably defended*, and the Indian Agents, and even the Commissioner of Indian affairs whom here last year advised some of us to proceed with our improvements

As to the Constitutionality of the law of 1843, we saw that when it was under consideration in the House of Representatives—John Quincy Adams, then a member, started the objection that it was an infringement of the provisions of the Constitution as to naturalization, but he was answered at once, that they (the Indians) were citizens by birth, and that this Act was simply to enable them to vote and to hold their lands in severalty, with which we suppose he was satisfied as he made no further objection.

And again in 1846, we saw here Commissioners specially appointed by the same power as yourself holding a treaty with the object pointed in the Stockbridges, it [which it was expressly stipulated that patents should be issued for the lands allotted to the citizen portion, and in fact nearly all the lands which *any* of the Indians had conveyed, in accordance with a schedule thereto attached, any error in which should be attributed to the *fact, that some of the claimants had left*, with the impression that no treaty would be made at that time.

But we see that the Commissioner has taken the ground that none of the Stockbridges had become citizens, and that consequently no patents were to issue But we also see that the 7th section of the Act of 1843, provides for the filing of *seven* al copies of the Report of the Commissioners, and maps, on or before the first day of January, A. D. 1844, that then "the said Stockbridge Tribe of Indians, and each and every one of them shall be deemed to be, and from that time forth are declared to be citizens of the United States to all intents and purposes &c.

Now we say that we believe and have never heard it denied, that there was a full, complete and literal compliance with all the requisites of said Act and that as a necessary consequence, they were citizens of *the United States* beyond a doubt, but even if they are not citizens technically speaking, is not the name without the description of the person sufficiently indicative of the intent of the contracting parties to justify the conclusion that the President was bound by that stipulation to issue the patents?

If then the act of Congress, approved March 3d. 1843. does not contravene any of the provisions of the Constitution of the United States, and has been literally complied with, did not that compliance vest in the Stockbridge Indians the right to hold their lands in severalty and to convey the same, and also all other rights, citizens of the United States, so completely, that Congress could not by repealing the act take any portion of said rights? This position we are informed was taken by the most prominent lawyers seen in this part of the State, and in consequence thereof none of the Stockbridges registered themselves under the repealing act of 1846.

We have been informed that the Supreme Court of the United States (8 Wheaton 464) say "That to hold that the repeal of a law, divested rights acquired under it would overturn at the best established doctrines of the law and "strip the very foundations upon which property "rests," and that the same doctrine is reiterated in 10 Wheaton 161.

Looking therefore at the act of 1843, as free from exception, only as to the question of its policy, and believing as we do, that it has been fully, *fairly*, honestly and literally complied with, that the General Government has at least until quite recently held it to be good, that our own Courts have taken jurisdiction of the Stockbridges generally, that our State has for years exacted and received from this town her proportion of the state taxes, has nearly every individual of the so-called Indian Party, has conveyed land and voted, most of them under the Oath that they were citizens of the United States, that the General Government under the Treaty of 1848, stipulated to patent the lands not ceded to them by that treaty, that the principle upon which it is proposed to adjust the claims of the whites, would be grossly unjust, inasmuch as it would take the fruits of their hard labor and persevering industry—against their consent and without fair compensation, and transfer the same to red men, a large portion of whom have been quietly looking on whilst we have been laboring and economising to our utmost *ability*, that we might be able to pay for and improve a home for ourselves and families, and all this to be done, that the same may be reconveyed to a tribe of men who it is not presumed, have paid, nor can pay for, nor make a judicious use of the same in its present unproved state.

And we further say, If the proposed treaty is made and confirmed, that in *our opinion* the sum proposed to be applied to the adjustment of our claims, will not reach one half the sum required by the conditions put forth; and we further say, from our acquaintance with its character, that we do not believe that the Senate of the United States would ratify said proposed treaty, after being informed of the facts in the premises—that in our opinion the best interest of the Stockbridges would not be consulted by entering into a treaty at this time, because its effect would be to keep them in suspense, and thereby check objectors in pulse to labor they might otherwise feel.

And we further say, that it must, we think, be apparent to all, that to allow this beautiful tract of land, *covering thirty-two square miles* on the east shore of Lake Winnebago, to be occupied and controlled by distinct laws and people, independent of the state, with the check which it must necessarily be on civilization and improvements of a public nature, situated as this town is in the centre of the county where our courts are held, would not be counterbalanced by all, by any trifling advantages *which might be claimed*, would accrue to the Indians by their remaining here.

And we further say, that since we have been settled here, land has risen so much in value, that we could not now provide homes, as well as when we came here, even if we paid interest at the rate of 25 per cent per annum, without any deduction for rent.

All Aboard.

On Saturday last our citizens enjoyed a rare treat—a steamboat ride on the Wisconsin, in the little steamer *Northerner*. On the polite invitation of Messrs Rood & Weston, the owners, at 9 o'clock nearly 100 ladies and gentlemen of the village stepped aboard, at the foot of Main St., finding everything in the most perfect order.—Pointing its prow up the stream under a full head of steam, the little *Northerner*, with its living enemy freight, pushed gaily off. The current is strong, and at many of the rapids, equal to 7 or 8 miles an hour All doubts as to the power of the boat were soon dispelled, as she *overcame every rapid with ease.*

Her destination was WYEVES. The day was fine, and the party was a happy one The officers of the boat *did* the honors with grace—the engineer and hands appreciated the occasion, and put the boat through in her best mute, occupying about three hours from Fox Point to Wikyn, a distance of 16 miles. Music and dancing beguiled the time, and the party were astonished at so soon finding themselves at the point of destination

If the party expected to take nine host Mr Wyllie by surprise, he really did them so, by the excellent dinner and refreshments which awaited them The entertainment at his house was no mean part of the days amusement.

At the o'clock, Capt. Reed summoned his friends once more on board, and bounding the *North river* to the southward, landed them all in safety at the foot of Main street, a little before seven

The scenery on this river is beautiful. Between Stevens Point and Wylies, are several locations that attract the eye of the traveler, and engage the attention of the speculator No finer sites for residences can be seen on any river, than these.

The trip has *proved three things*—that Capt. Reed has in him the elements of a true gentleman—that our people can enjoy a gala day with good taste, and that Upper Wisconsin can be navigated with steam.—[Steven's Pt. Pinery, May 31.

Weather—Prices—Lands—Crops—Money—Labor—Mercantile Business.

Well, we have been refreshed and profited by a good soaking rain— consumer and producer will share alike its benefits. People began to fear a drought and famine, and thought grasping their flour cents and corn with a tighter hand. Now *they will let loose freely, and prices will not go* up higher at present. Cultivate largely, farmers, for you will sell at high prices for one or two years. The chances are in your favor, but do not run in debt for land at present prices. Sell off all your surplus lands to the new settlers and pay what you owe. Land speculations are about to close All vise over present rates will be *forced—fictitious*, and will *only* provoke a back-action. Everything has its intrinsic value, and all above or under that value must be taken or added to, sooner or later.

Crops, though merely in their primary stages, show well, and unless something not foreseen befalls them, will be heavy. We never knew better prospects for crops.

Money is exceeding plenty and there is no necessity for an idle hand. Common laborers can send the highest rates of wages they ever did in these parts. In all mechanic branches, wages for labor and prices of products are very high

Merchants are astonished at the business they do, and their spring purchases will fall far be*hind the demand. They will have to replenish* every week or two. They are totally unprepared for the emigration, and, like the philosopher who lectured, waiting for the mountain to pass by rather than he might cross, are also waiting on the current which seems rather to swell than abate.—[Grant Co. Herald.

THE WINNEBAGOES.—Gen. Fletcher was in the city yesterday, and busily engaged in perfecting arrangements for the complete removal of the Winnebagos to their new home. The Mississippi bands started on Wednesday, with everything necessary for them, and yesterday General Fletcher bought teams and cattle to place on the new farms. The Long Prairie Indians have not come forward as yet, but are expected every day. Gen. Fletcher has some $24,000 of Annuity money, which will be paid out as soon as the Indians can be collected at the new Agency.—[Minnesota Pioneer.

FIRE.—On Tuesday morning last, about 12½ o'clock, a fire was discovered in S. H. Clement's Jewelry Store, in Crane's block, Turtle street.—The doors were forced open and the flames extinguished, but not until the inside of the store was badly scorched Four persons sleeping in the room immediately over the store, were nearly suffocated by the smoke, and it was with difficulty some of them were aroused. How the fire caught is not known, but it is supposed to have been the work of an incendiary. Loss not yet ascertained. Mr. Clement had an insurance on his stock and fixtures to the amount of $4,000—$1,500 in Hold Ætna, $1,500 in Hartford Fire Ins. Co., and $1,000 in another Company.—[Beloit Journal

FLUSHY TRANSACTION.—The Albany *Atlas* relates the following as an actual occurrence: "A German, named Henry ——, appeared at the Police Office this morning, desiring to know in what case he was wanted as a witness. His story was, that a month since he removed from this city to Wisconsin; that a few days after he arrived there he was *knocked down by a stranger*, who showed him a subpœna, telling him he was wanted as a witness here. He started for this city next day and arrived here yesterday. He wants to know who he is to sweat against."

RAINS IN MINNESOTA.—The recent rains have been a great blessing to many a heart in this Territory, and it is certain that it has been the salvation of the farming interest. Everything that grows out of the earth wears its freshest hue, and there is promise now of a good planting season and an abundant result.—[Minnesota Pioneer.

CROPS.—Farmers from the neighborhood adjacent to St Paul inform us that the crops are *coming forward* finely since the late rains. Upon the newly opened farms across the river, the grain fields look particularly promising.—[Minnesotian.

BACKWARD SEASON IN VERMONT.—From a gentleman who left Vermont on the 22d ult., and arrived here on the 30th., we learn the spring there has been uncommonly backward. At the time he left, not a tree or herb had bloomed, except the Wild Cherry. Our Yankee friend's opinion of Lancaster and Wisconsin is very high. He says the country is an improvement upon any conception of Paridise he has ever *formed*, even in his dreaming moments.—Grant Co. Herald.

THE SHEEP SHEARING FESTIVAL.—We understand the Committee have made arrangements for getting the tent used by the State Agricultural Society for the use of the Festival on the 14th and 15th inst. This will afford good accommodations for the large number that will undoubtedly be here We believe the ground is also selected upon which to erect it but we have not as yet learned the exact locality.—[Whitewater Gazette.

☞ While some of the students of Geneva College were bathing Thursday afternoon in a culvert near Geneva, one of the number, named KERNAN, son of a lawyer of Lockport, requested a companion to place his hand on his heart and feel it beat—and while in the act of doing so he dropped dead at his feet. His death was easy, for he only lived a minute after the body was too much heated.—[Roch. Com't.

FATAL EXPLOSION.—We learn that on Friday last, about 4 o'clock P. M., the boiler of the steam ferry at Guttenburg, exploded, injuring two of the hands and several passengers, besides fatally, it is feared injuring Mr. Morrison, the Engineer. Mr. Morrison, formerly ran the steam ferry Gregoire at Dubuque.—(*Dubuque Herald* June 5th.

COLLINS' NEW STEAMSHIP.—Mr. Collins having completed a contract with Messrs. George and James R. Steers, for the construction of another large steamer for the New York and Liverpool line, as a substitute for the "Arctic," (being the fifth built for this line) the contractors are actively engaged in preparations to lay the keel, at Jacob A. Westervelt's old yard, foot of Stanton street. A large proportion of the timber is already on the spot, and more is landing The pieces of white oak for floor timbers, &c., were cut last January in the forests of Maryland and Virginia, and are considered remarkably fine sticks.

We are informed that the new steamer is to exceed in magnitude any of her predecessors, and will no doubt *stand peerless among* the fleet of American steamships It is said that Stillman, Allen & Co, will build the engines, and that oscillating engines will probably be adopted.—The hull will be ready for launching by the 28th of February next, should anticipations be realized, and three or four months more will suffice to complete the vessel. Oscillating engines are preferred on account of their *occupying* less space, and requiring a smaller weight of metal in their construction.

Mr. George Steers, the builder, has had a brilliant career. A few years ago he was a mechanic in humble circumstances, chiefly engaged in constructing sail boats—now he stands among the foremost in his profession, and his name is known to distant lands. *Having become skilled* in boat, he constructed a yacht which bore off the palm, when the representatives of all enlightened nations were competing for the mastery.—He was entrusted with the building of the largest of the six steam frigates ordered by Congress, (the Niagara,) and which promises to be the pride of our navy Ere she is ready for launching, *fresh accessions are made to his* laurels, and he now commences a steamship for the merchant marine, which will doubtless reflect honor upon the builder and the country.—[Journal of Commerce.

Statistics of Wauwau, Marathon Co, Wisconsin.

The *village*, about 40 miles North of *Stevens'* Point, is the principal town in Marathon county and will undoubtedly, in a few years be the most central point in all the upper country The population embraces several gentlemen of the greatest energy and enterprise, with abundant capital to back up their movements. It is the residence of our Representative in the Legislature, the Hon. *W. D. McIndoe, himself a host* in all that pertains to the settlement and development of the resources of a new county.

Besides the extensive water power on the Big Bull Falls, perhaps the very best on the river, the site has the advantage of being surrounded with the most valuable pine lands in the whole Pinery. Farming lands, also, of the very best quality, abound a short distance from the streams, the soil being superior to that below, comprising a mixture of clay, gravel and loam.

There is a good road from Stevens Point to Wausau, and settlers are going up in great numbers to Marathon County.

Port Washington Brick Yards.

We have just returned from a visit to the several brick yards of this village, where we found the brick makers busily employed in moulding clay suitable for building purposes. We must here add that we were greatly surprised on beholding the enormous quantity of brick already moulded, dried and put into kilns ready for burning, since the opening of spring.

Blake & Matthews have one large kiln containing some 300,000 now ready for burning, in their east yard. In their west yard they have commenced one, which they say, with favorable *weather, dry and steadily* of course, must be in readiness for burning by the last of next week. These brick are being manufactured for Alanson Sweet & Co., of Milwaukee, and are to be used in the construction of Light Houses and public buildings which are to be erected the present season.

In the north yards, Messrs Richards & Wilmot *are driving the "brick works"* in a manner that would do credit to places of three the inhabitants of Port Washington. They manufacture pressed brick of a superior quality. We think they cannot be excelled in point or size, smoothness, and the rich cream color of the commodity, by any yards in the state, not excepting the beautiful brick made in the city of Milwaukee.—Ozaukee *Advertiser.*

THAT BRICK BLOCK.—Mr. Charles Zuegel has this week broken *ground for the foundation of* his Brick Block, corner of Eighth Street and New York Avenue. This Block, is to be 100 feet in depth on New York Avenue, 52 feet front on Eighth Street, and three stories high—the lower story being intended for Stores, and the upper stories for Offices, &c. We learn that it is Mr. Zuegel's intention to put up two stores adjoining them on the North, next season, thus making the whole something larger than Otten's block.

He has also recently sold 38 feet on Eighth Street adjoining the alley, by 170 feet deep, to a gentleman from Milwaukee, for $1600, on the express condition that he shall build a similar brick building on the premises within one year. This will give a continuous Block of Stores of 170 feet front and 100 feet in depth.—[Sheboygan Times.

ANOTHER NEW HOTEL.—No sooner have we chronicled the completion and formal opening of that splendid Hotel the *Bazaar House*, than we are called upon to note the commencent of another Hotel of equal magnificence. The site of the latter will be the Northwest corner of Michigan avenue and South Water street, where the ground has been prepared and is now in readiness to commence the work. The size of the new Hotel will be 131 feet long by 70, and it will be six stories *high*. The *material* will be the best Milwaukee pressed brick. The plans and drawings of the building executed at the office of Mr. Olmstead, Architect, indicate an edifice that will compare favourably, in every part color, with the best hotels in the West. It is for Hon. T. Richmond. of this city.—[Chicago Tribune.

U. S. Troops for the West.

Four companies of the 2d Regiment of U. S. Infantry, under command of Gen HITCHCOCK, went through the city yesterday, en route for Fort Pierce, Nebraska Territory, 800 or 900 miles above Fort Leavenworth They were from Carlisle Barrack, Pa. They came here by the Michigan Southern Road, and left by the Chicago and St. Louis Road. Two other companies of the same regiment are already at Fort Pierce. The officers accompanying these companies are Gen. Hitchcock, Major WESSELS, Captain Lovell. Davison, and Gardiner, Lieutenants Page, Sweeney, Smith, Curtiss, and O'Connell, all of the 2d Infantry; Dr. Magruder and Lt Sheppard 2d Division.—[Chicago Tribune

THE WHEAT FLY IN MICHIGAN.—Our Detroit Exchanges bring numerous extracts from the country papers of Michigan, by which it appears that the fly is doing immense damage to the wheat in Hillsdale, Livingston, Cass, Barry, and other counties. The Kalamazoo *Gazette* says:

We had no previous conception of the blighting influence which has so suddenly swept over our wheat fields. The ruin is almost total.—Fields, that three or four weeks ago looked looked healthy and thrifty, and gave promise of an abundant harvest, are now yellow, blighted, and withered. But few pieces have escaped; and those that have, owe their immunity principally to late sowing, or the kind of seed used; the Mediterranean, in cases, we believe, being untouched. One quarter of a crop is the most that can be depended upon. Many farmers will not even realize this—the destruction in many cases being thorough and entire.

SUICIDE OF S. L. PETRIE.—Yesterday afternoon Mr. Petrie was found suspended by the neck, and dead, in his barn near his house, about three miles from the city on the Newburgh road. Coroner Marseilles was called, and the verdict of a jury empannelled by him was, "came to his death by his own hands, while under aberration of mind." For a week or two, as we are informed, Mr. Petrie had been in ill health, was depressed in spirits—the latter owing partly, no doubt, to the fact that he had met with a loss of $76,000 by an unprofitable investment—and was quite active in settling up his business matters, saying frequently that he intended to destroy himself. His conduct, it seems, excited very little notice, and none had expected that he would thus have taken his life. He long had been a resident here, and after a great many years of active business, had accumulated a comfortable, if not a large property.—[Cleveland Herald, June 4.

THE GROWTH OF OUR CITY.—We last week copied an article from the Fond du Lac *Union*, stating as an evidence of the rapid growth of that city, that the Editors, in a drive around town, counted twenty-seven *buildings* in process of erection. A friend of ours, in alluding to it, said that in taking a walk around the city, a few days since, he had the curiosity to count the *dwellings* going up and the number was *ninety four*, exclusive of barns, shops, Mills, &c. This we think, considering that every one of these is building by some one who intends to occupy it himself, indicates a pretty rapid growth for a city seven years old "from the stump."—[Oshkosh Democrat.

FIRST WARD—At Best's Lager Beer Hall, on Market street.

SECOND WARD—At the Mansion House.

THIRD WARD—Myrtle House No. 2.

FOURTH WARD—Engine House of No. 5.

FIFTH WARD—Lake House.

On Monday the 25th day of June, A. D., 1855, between the hours of two and six o'clock in the afternoon, for the purpose of adopting or rejecting "An Ordinance authorizing an issue of City Bonds to the Milwaukee and Horicon Railroad Company," upon the back of which is written the words "For the Railroad Ordinance," or the words "Against the Railroad Ordinance."

R. WHITEHEAD, City Clerk.

Milwaukee, June 9th, 1855.

AN ORDINANCE

Authorizing an issue of City Bonds to the Milwaukee and Horicon Railroad Company.

The Mayor and Common Council of the City of Milwaukee, do ordain as follows:

Sec. 1. For the purpose of aiding in the construction of the Milwaukee and Horicon Railroad, City Bonds to an amount not exceeding the sum of one hundred and six-ty thousand dollars may be issued and delivered to the Milwaukee and Horicon Railroad Company on the terms and conditions specified in "An act authorizing the City of Milwaukee to loan its credit in aid of certain Railroads," approved April 7, 1853, and also an act supplementary thereto, approved March 31st, 1854, and on the terms and conditions hereinafter provided.

Sec. 2 Every bond issued under the authority contained in the preceding section, shall be made payable in twenty years from the date thereof, with interest payable semi-annually at the rate of seven per cent. per annum, each principal and interest payable at the office of the Republic in the City of New York, shall be signed by the Mayor and countersigned by the Clerk of the Common Council, and by the corporate seal of the city.

Sec. 3 No bonds shall be issued to said Railroad Company until all the provisions relating to the bonds and securities to be given and furnished to said city, as provided in the aforesaid act, shall be fully complied with on the part of said Company, or until such securities shall be furnished to said city as shall be satisfactory to the Common Council thereof.

Sec. 4. This Ordinance shall not be in force until submitted to the legal voters of the City of Milwaukee, at an election held for that purpose at the time hereinafter provided, and adopted by a majority of the whole number of votes given at such election.

Sec. 5. An election shall be held on Monday, the 25th day of June, A. D. 1855, between the hours of two and six o'clock in the afternoon of said day, at the places in the several Wards of the city, where the last elections were held, except in the Third Ward, in which said election shall be held at the Engine House of Fire Company No 5, for the purpose of the adoption or rejection of this ordinance, and such election shall be conducted and the votes canvassed and returned in the same manner and by the same officers as at other city elections.

Sec 6 On the ballots which shall be received by the inspectors of such election, shall be distinctly printed the words, "For the Railroad Ordinance," or the words "Against the Railroad Ordinance."

Sec. 7. At the next regular or special meeting of the Common Council, after the polls are closed at such election from the several Wards in the City of Milwaukee, are made to the City Clerk, the Common Council shall proceed to canvass such returns, and if it is found that a majority of the whole votes taken are in favor of this ordinance, it shall be the duty of the Mayor to make proclamation thereof in the official paper or papers of the city, and the said ordinance shall be in force and take effect from its first publication, subsequent to the date of such proclamation.

Sec 8. It is hereby made the duty of the City Clerk to cause a certified copy of this ordinance, together with a notice of the time and place of holding the election specified therein, to be published in the official city papers three several times; one of which publications shall be made in each of said newspapers at least two weeks previous to the time of holding such election.

A Desirable Farm for Sale!

CRUMMEY'S MODEL FARM,

IN THE TOWN OF

Summit, Waterville, Waukesha Co.

THIS FARM RUNS INTO THE PLEASant village of Waterville. Post Office a hundred rods from the House, and Mail Stage passes every day. It is situated between the Milwaukee & Mississippi and the Milwaukee & Watertown Railroads. It is five miles from the Depot at the former, and seven from the latter; three and a half miles from Nashotah Mission and Delafield, and twenty-five miles from Milwaukee. There is a splendid School House adjoining the farm. On the farm is a beautiful Lake, which abounds with Fish. The farm contains 360 acres, 220 acres under a high state of cultivation; 160 acres in Timothy and Clover; 120 under plow, the balance in good pasture land, and 20 acres of a beautiful grove of Oaks. The farm is divided and fenced off into 20 acre fields, and is one of the best watered farms in the State

On the farm there is a SPLENDID COTTAGE DWELLING HOUSE, containing two large Parlors, a large sitting Room, large Dining Room and Kitchen, a good Cellar and Cistern underneath, a splendid well of water with a chain pump, 9 bedrooms, for family use, besides others to accommodate hired help

The grounds in front and around the House are beautifully laid out with Shrubbery, Ornamental Trees, and Fruit of all descriptions. A large Wash-house, Poultry-house, Wood shed, &c. A fine large vegetable garden, with all kinds of Currants, Gooseberries, Raspberries, and the choicest Grapes. Views of the above kinds

On the farm is an ORCHARD of 1200 trees, covering 20 acres, of Apple, Pear, Peach, Plum, Cherry and Quince, most of which have been in bearing for the last two years

On the farm is a large barn, 60 by 40, a large horse stable, which we can accommodate 30 head of horses, a hog pen to feed 100 head of horned cattle, with stalls, calf pens, &c. Sheep sheds to accommodate 1000 head of sheep. All of these buildings are two stories high, with chain pump in the barn floor, to water cattle in winter. Also a grain house 40 by 30, with hog pens underneath; a work shop, tool house, &c.

There is also a beautiful Salt Boat on the Lake, with a full set of fishing nets. No one has been no expense spared to improve and make this the best farm in the State. It must be seen to be appreciated. The stock and farm will be sold together or separate.

For further information, terms, &c., apply to the subscriber on the premises, or by mail to Waterville, Waukesha Co., or to D. G. POWER, Milwaukee.

FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most delightful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, READLAND, the well-known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co., and containing about 230 acres, 150 of which are under cultivation, well fenced, and divided into convenient fields.

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of location. Upon it, a summer residence for one of the most desirable residences in the state. It is bounded upon the West, to a large extent, by Pine Lake one of the largest and most beautiful of our inland Lakes, giving it unsurpassed advantages for water power and bathing, and the Lake bounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it has easy of access and communication with Milwaukee, affording ready market for all kinds of produce, besides good stores at Hartland, mills in the neighboring villages of Delafield, Hartland and Oconomowoc.

The Nashotah Theological Seminary is within 3 miles, and other good schools convenient. The land is in a high state of cultivation, has always been manured with cropping, a large portion has been seeded down, and it admirably possesses all the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House, with well and good water attached, 32 feet Barn House, a large Stable, 36X36, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at any time desirable.

For further particulars apply to GEO. R. M'LANE, on the premises, or by mail to Pine Lake P. O., Waukesha Co., Wis., or to D. G. POWER,

my25 Real Estate Agent, Milwaukee, Wis.

FARM FOR SALE.

I AM AUTHORIZED BY MR. J. M. WOODRUFF to offer his farm for sale, with the stock, tools, crops, &c. The location is one of the pleasantest in the vicinity of Milwaukee, commanding a fine view from every direction. Its location for health is unequaled. The tract contains 159 acres, 80 of which is under fence and cultivation. The area of the whole is level, all in a body, with a beautiful maple grove in one corner. There is a good Frame House, with a well and cistern convenient to the kitchen, 2 large Barns, sheds, Corn and Horse Houses, Granary and Wood Houses, Pens, Hog Pen, &c. There are 150 or 175 Fruit Trees, Currants, Grapes, strawberries, &c., all bearing. The premises are on the Watertown plank road, and only a short distance from the Mil. & M. Railroad, in the immediate vicinity of Grist and Saw Mills, Blacksmith Shops, Post Office, Churches, Schools, &c.

The Railroad and Plank Road make it always acceptable to Milwaukee for a business man or a farmer. A plan of the premises may be seen at my office. It will be exchanged for city property, or sold at a bargain. For further particulars enquire of

Herring's Champion

Fire-Proof Safes!

GREAT FIRE AT PETERSBURG, Va

EXTRACT FROM A LETTER, DATED

PETERSBURG, Va., May, 21, 1855.

Messrs. S C HERRING & Co:

Messrs Falconer, Plummer & Co., in whose store the fire originated, had one of your Champion Safes, containing their books, papers, and $630 in bank notes, while it was in the hottest of the fire about two hours, the contents were perfectly preserved to their entire satisfaction, as well as the community at large; and not a doubt now rests on the minds of any who saw the contents after the fire, of the capability of your Herringbone Safes to resist the most intense heat for almost an indefinite period of time.

Yours truly,

WATKINS, SON & CO.

HERRING'S Patent Champion Fire-Proof Safe, with Sharp's Patent Powder Proof Locks, the same as were awarded separate medals at the World's Fair London, 1851, and the World's Fair, New York, 1853 and 1854, and this is the lock, and the only powder-proof one that received a medal at the London World's Fair though others were on exhibition, and now advertised as "World's Fair Locks!" The subscribers and their agents are the only persons authorized to make and sell the Patent Champion Safe, with Hall's Patent Powder-Proof Locks.

The Liquor Law in Illinois.

Chicago, June 8, 7 P. M.

Returns to date foot up majorities as follows—for Prohibition 15,205—against ditto 15,175, leaving an apparent majority of 30 votes for the law. The final result is quite as much in doubt as ever, but the general impression is that the law is defeated.

From California.

New York, June 8.

The steamship *Illinois* arrived to-day with about 450 passengers and $495,000 in treasure. The California dates were anticipated.

The *Golden Age* was again got afloat on the 2d of May, and was being repaired for an immediate trip to San Francisco. She is said to be in a perfectly safe and good condition.

ELECTION NOTICE.

NOTICE IS HEREBY GIVEN TO THE LEGAL voters of the City of Milwaukee, that an election has been ordered by the Common Council, to be held in the several Wards, at the following places, to wit:

FIRST WARD—At Mack's Lager Beer Hall, on Market street.

SECOND WARD—At the Mansion House.

THIRD WARD—Engine House of No. 6

FOURTH WARD—Engine House of No. 5.

FIFTH WARD—Court House.

On Monday the 25th day of June, A. D., 1855, between the hours of two and six o'clock in the afternoon, for the purpose of adopting or rejecting "An Ordinance authorizing an issue of City Bonds to the Milwaukee and Horicon Railroad Company," upon the ballots are to be written the words "For the Railroad Ordinance," or the words "Against the Railroad Ordinance."

R. WHITEHEAD, City Clerk.

Milwaukee, June 8th, 1855.

AN ORDINANCE

Authorizing an issue of City Bonds to the Milwaukee and Horicon Railroad Company.

The Mayor and Common Council of the City of Milwaukee, do ordain as follows:

Sec. 1. For the purpose of aiding in the construction of the Milwaukee and Horicon Railroad, City Bonds to an amount not exceeding the sum of one hundred and fifty-six thousand dollars may be issued and delivered to the Milwaukee and Horicon Railroad Company on the terms and conditions specified in "An act authorizing the City of Milwaukee to loan its credit in aid of certain Railroads," approved April 2, 1853, and also on said amendatory thereto, approved March 31st, 1854, and on the terms and conditions hereinafter provided.

Sec. 2 Every bond issued under the authority contained in the preceding section, shall be made payable in twenty years from the date thereof, with interest thereon semi-annually at the rate of seven per cent. per annum, and both principal and interest payable at the Bank of the Republic in the City of New York, shall be signed by the Mayor and countersigned by the Clerk of the Common Council, under the corporate seal of the city.

Sec 3 No bonds shall be issued to said Railroad Company until all the provisions relating to the bonds and securities to be given and furnished to said city, as provided in the aforesaid acts, are fully complied with on the part of said Company, or until such securities shall be furnished to said city as shall be satisfactory to the Common Council thereof.

Sec. 4. This Ordinance shall not be in force until submitted to the legal voters of the City of Milwaukee, at an election held for that purpose at the time hereinafter provided, and adopted by a majority of the whole number of votes given at such election.

Sec. 5. An election shall be held on Monday, the 25th day of June, A. D., 1855, between the hours of two and six o'clock in the afternoon of said day, at the places in the several Wards of the city, where the last elections were held, except in the Third Ward, in which said election shall be held at the Engine House of Fire Company No 6. For the purpose of the adoption or rejection of this ordinance, and such election shall be conducted and the votes canvassed and returned in the same manner and by the same officers as at other city elections.

Sec 6 On the ballots which shall be received by the inspectors of such election, shall be written or printed the words, "For the Railroad Ordinance," or the words "Against the Railroad Ordinance."

Sec. 7. At the next regular or special meeting of the Common Council, after the return and such election from the several Wards in the City of Milwaukee, are made to the City Clerk, the Common Council shall proceed to canvass such returns, and if it is found that a majority of the whole votes taken are in favor of this ordinance, it shall be the duty of the Mayor to make proclamation thereof in the official paper or papers of the city, and the said ordinance shall be in force from and after its first publication, subsequent to the date of such proclamation.

Sec 8. It is hereby made the duty of the City Clerk to cause a certified copy of this ordinance, together with a notice of the time and place of holding the election specified therein, to be published in the official city papers three several times, one of which publications shall be made in each of said newspapers at least two weeks previous to the time of holding such election.

Passed June 8th, 1855

It is five miles from the Depot in the former, and seven from the latter; three and a half miles from North-East Mission and Delafield, and twenty-five miles from Milwaukee. There is a splendid School House adjoining the farm. On the farm is a beautiful Lake, which abounds with Fish. The farm contains 160 acres, 100 acres in a high state of cultivation; 100 acres in Timothy and Clover; 120 under plow, the balance in good pasture land, and 80 acres of a beautiful Grove of Oaks. The farm is divided and fenced off into 20 acre fields, and is one of the best watered farms in the State

On the farm there is a SPLENDID COTTAGE DWELLING HOUSE, containing two large Parlors, a large Sitting Room, large Dining Room and Kitchen, a good Cellar and Cistern underneath, a splendid well of water with a force pump, 8 chambers, for family use, besides others to accommodate hired help.

The grounds in front and around the House are beautifully laid out with Shrubbery, Ornamental Trees, and Vines of all descriptions. A large Wash-house, Poultry-house, Wood shed, &c. A fine large vegetable garden, with all kinds of Currents, Gooseberries, Raspberries, and a choice variety of Grapes, vines of the choicest kinds

On the farm is an ORCHARD of 1200 trees, covering 20 acres, of Apple, Pear, Peach, Plum, Cherry and Quince, most of which have been in bearing for the last two years.

On the farm is a large barn, 50 by 80, a large horse stable, which will contain 40 head of horses, a sheding for 20 head of horned cattle, with stalls, calf pens, &c. Sheep sheds to accommodate 1000 head of sheep. All of these buildings are two stories high, with chain pump in the basement for water to all the stables. A large Granary 40 by 30, with hog pens underneath; a work shop, tool-house, &c.

There is also a beautiful Sail Boat on the Lake, with a full set of sails. There has been no expense spared to improve and make this the best farm in the State. It must be seen to be appreciated. The stock and farm will be sold together or separate

FOR SALE.

A VERY DESIRABLE LAKE FARM, EMbracing one of the most beautiful country residences in Wisconsin, 25 miles from Milwaukee, on the Milwaukee & Watertown Railroad and Plank Road.

The subscriber offers at private sale, HEADLAND, the well known farm upon which he now resides, situated about two miles from the village of Hartland, Waukesha Co., and containing about 260 acres, 160 of which are under cultivation, well fenced, and divided into convenient fields

This body of land is unsurpassed in richness and productiveness of soil, and for beauty of scenery and location, acknowledged to be one of the most desirable residences in the state. It is bounded upon the West, to large extent by Fox Lake, one of the largest and most beautiful of our inland Lakes, giving it superior advantages for water power and bathing, and the Lake bounds with fish and game in great variety.

Situated upon the Milwaukee & Watertown Rail and Plank Roads, and within a short walk of Pine Lake Station and Hartland Depot, it has easy of access and communication with the Markets, affording a ready sale for all kinds of produce, besides good stores and a grist mill in the neighboring villages of Delafield, Hartland and Oconomowoc

The Washtoth Theological Seminary is within 2 miles, and churches and schools convenient. The land is in a high state of cultivation, has always been manured with compost, a large portion has been limed, and is admirably possessed of the requisites for a good sheep and stock farm.

The improvements consist of a good frame Dwelling House with well and good water attached, frame Tenant House, a large Barn, 80X86, Ice House, Cattle Shed, &c. Also a young and thrifty Apple Orchard upon the premises, with abundance of Strawberries and Raspberries. Possession given at an early day, if desirable.

For further particulars apply to GEO. R. M'LANE, on the premises, or by mail to Pine Lake P. O., Waukesha Co., Wis, or to D G POWER,

Fire-Proof Safes!

GREAT FIRE AT PETERSBURG, Va

EXTRACT FROM A LETTER, DATED

PETERSBURG, Va., May, 21, 1855.

MESSRS. S C HERRING & CO

Messrs Falconer, Plummer & Co., in whose store the fire originated, had one of your Champion Safes, containing their books, papers, and $6000 bank notes, which is now in the hottest of the fire about twelve hours, and the contents were perfectly preserved to their entire satisfaction, as well as the community at large; and not a doubt now exists on the minds of any who saw the contents after the fire, of the capability of your unrivalled Safes to resist the most intense heat for almost an indefinite period of time.

Yours truly,

WATKINS, SON & CO.

HERRING'S Patent Champion Fire-Proof Safes, with Hall's Patent Powder Proof Locks, the same that were awarded separate medals at the World's Fair London, 1851, and the World's Fair, New York, 1853 and 1854, and this is the lock, and the only powder-proof one, that received a medal at the London World's Fair though others were on exhibition, and now advertised as "World's Fair Locks". The subscribers and their agents are the only persons authorized to make and sell the Patent Champion Safe, with Hall's Patent Powder-Proof Locks.

The Liquor Law in Illinois.

Chicago, June 8, 7 P. M.

Returns to date foot up majorities as follows—for Prohibition 15,205—against ditto 15,175, leaving an apparent majority of 30 votes for the law. The final result is quite as much in doubt as ever, but the general impression is that the law is defeated.

From California.

New York, June 8.

The steamship *Illinois* arrived to-day with about 450 passengers and $695,000 in treasure. The California dates were anticipated.

The *Golden Age* was again got afloat on the 2d of May, and was being repaired for an immediate trip to San Francisco. She is said to be in a perfectly safe and good condition.

Washington, June 8.

The Anti-Know-Nothings have determined to contest the election of the new City Officers. The incumbents of the Registers and collectors offices are advised to retain their position.

RHODES'

FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of the Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Ketch Ague, General Debility, Nervous Headache and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is prevailing to such a fearful extent every month, in the same character wherever it is met with, North, South, East or West, must and will yield to the power of the newly discovered antidote, which is confined to it the moment it approaches in proximity, and expels.

This specific is no humbug—but it may be naturally presumed of many opposing remedies in the market will substitute for one it knows to be the cheapest, as is often the result in the treatment by quinine, Morrow's Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this specific.

The proprietor confidently claims for it the extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years, so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve and permanently cure all bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to receive appetite, sound sleep, and continues in all a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and small chaos. Farmers and all laboring men by purchasing a package of twelve pills will be free from Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

Each box contains all necessary directions for any case, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade. Trade circulars forwarded on application, and the articles will be consigned on liberal terms to responsible parties in every section of the country.

Patent Shingle Mill.

EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

All cuts with which wood is worked in that direction (with a speed of execution), and the flexibility of the shingle width same as sawed. The saw, in this Mill, is round thin on its edge, so as to cut away but little of the wood.

The shingles now made with this Mill sell in this market *eighty-five cents per thousand higher* than any other sawed shingles.

This Mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

Valuable Invention!

IMPORTANT TESTIMONY IN ITS FAVOR.

FLOUR INSPECTOR'S OFFICE, }

Philadelphia, April 20th, 1855. }

MESSRS. EDWIN AND JAMES M. CLARK.—Gentlemen—Having carefully examined the construction, operation, and workmanship of your newly patented Combined Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation:

The Mill in the French Burr Mill Stone, thirty inches diameter, it ground and bolted from nine to twelve bushels wheat per hour, making clean work, and at the same time turning out at a single operation, extra flour, superfine flour, shorts, ship stuff and bran. The extra and superfine flour is of an excellent quality, and the yield per bushel is equal to the large classed complicated mills of modern construction. It occupies but little room, can be fixed in a compass of 25 feet square, or less, which, when in running order, with all the machinery regulated, can be easily removed or transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and will last a lifetime, and appears to be particularly adapted to the circumstances of the country at large; and from its cheapness of construction, small amount of capital requisite to start it, rapidity of grinding per hour, its non-liability, and adaptation to any power now in use, I do not think that ere long it will be successfully established in every State in the Union, if it does not entirely take the place of the old complicated machinery heretofore used.

Yours truly, STEPHEN MILLER.

Head Flour Inspector of Philadelphia.

This valuable Mill can be seen in operation daily, at No 313 Arch street, next to the Theatre, Philadelphia, from the o'clock in the forenoon, until 4 o'clock, and from two o'clock in the afternoon, until four, by any one wishing to purchase County or State rights. The patentees will have many of the most valuable States and Counties for sale, and will give all satisfaction relating to the same. Those desirous of engaging in this promising speculation, will do well to call and see it soon, as hundreds are doing daily.

The prices which the Patentees are selling County and State at, justify the most timid in purchasing, and within the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold. The Patentees Edwin and James M. Clark, intend remaining in this city for some time, for the purpose of selling the entire United States. County and State for sale.

☞ Persons writing for information must enclose Stamp to pay return postage.

Fire-Proof Safes!

GREAT FIRE AT PETERSBURG, Va.

EXTRACT FROM A LETTER, DATED

PETERSBURG, Va., May, 21, 1855.

MESSRS. S. C. HERRING & CO.

Messrs Falconer, Plummer & Co., in whose store the fire originated, had one of your Champion Safes, containing their books, papers, and $6000 in bank notes, which was in the bottom of the fire about twelve hours, and the contents were partially preserved to their entire satisfaction, as well as the community at large, and it has now risen on the minds of any who saw the contents after the fire, of the capability of your unrivalled Safes to resist the most intense heat for almost an indefinite period of time.

Yours truly, WATKINS, SON & CO.

HERRING'S Patent Champion Fire-Proof Safes, with Hall's Patent Powder-Proof Locks, the same that were awarded separate medals at the World's Fair London, 1851, and the World's Fair, New York, 1853 and 1854, and this is the locks, and the only powder-proof lock, that received a medal at the London World's Fair though others were on exhibition, and now advertised as "World's Fair Locks." The subscribers and their agents are the only persons authorized to make and sell the Patent Champion Safe, with Hall's Patent Powder-Proof Locks.

Nature's Infallible Specific.

FOR the Prevention and Cure of the Intermittent and Remittent Fevers, Fever and Ague, Chill and Fever, Bilious Fever, and all other Diseases originating from Miasmatic Exhalations, and all other forms of disease which have a common origin in Malaria or Miasma. This volatile atmospheric poison which at certain seasons is unavoidably inhaled at every breath, in the same in character when it rises from the Southern, South, East or West, and will control one, while they rapidly diminish and subdue it, which is of equal force in the autumn to prostrate its victims.

This specific is so prepared that it may be taken by persons of every age, sex or condition, without change or substitute for one disease or ...till worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other powerful poisons or deleterious drugs, and a particular of any of which is admitted into the preparation.

The proprietor ...confidently relies that the extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or unhealthy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly relieve the Acute ...persons who have suffered any length of time, from one day to twenty years, so that they need never have another attack, by continuing its use according to directions.

It will immediately relieve all distressing symptoms of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all places. Farmers and all laboring men by adopting it as a preventive will ...the fatal Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and English, accompany each bottle.

Valuable Invention!
IMPORTANT TESTIMONY IN ITS FAVOR.
FLOUR INSPECTOR'S OFFICE,
Philadelphia, April 20th, 1855.
MESSRS. EDWIN AND JAMES M. CLARK:—Gentlemen—Having examined attentively the construction, operation, and workmanship of your newly patented Combined Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation:
...the Fremch Burr Mill Stone, thirty inches in diameter, it ground and bolted from nine to twelve bushels of wheat per hour, making clean work, and at the same time turning out at a single operation, extra flour, superfine flour, middlings, ship stuff and bran. The extra and superfine flour is of an excellent quality, and the yield per bushel is equal to the large classed complicated mills of the old-fashioned construction. The Mill Stone room, can be placed in a compass of 21 feet in length, by 6 feet, which, when in running order, with all the machinery requisite, can be easily removed or transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and takes but little power, and appears to be particularly adapted to the wants of the country at large; and from its cheapness of construction, and small amount of capital requisite to start it, readily of grinding per hour, ... for consideration, with ... portability, and adaptation to any power now in use, I cannot but think that one long it will be successfully established in every State in the Union, if it does not entirely take the place of the old complicated machinery heretofore used.
Yours, truly, STEPHEN MILLER.
Head Flour Inspector of Philadelphia.
This valuable Mill can be seen in operation daily, at No. 213 Arch street, ... Philadelphia, from ... o'clock in the forenoon, until ... o'clock, and from two o'clock in the afternoon, until four, by those ... to call. Those ... are the ... rights.
